100%-polypropylene, ball-shaped body with micro-hole pipe distribution. Supporting base of the double-ring filter to ensure stability. The six-way valve seal is guaranteed by means of jaws with wing screws and the nut seat does not require any tool. TOP six way valve.

CARATTERISTICHE TECNICHE

- Stampato ad iniezione
- Finitura a spicchi lucidi e satinati
- Distribuzione a candele drenanti
- Scarico filtro da 3/4"
- Pressione Max.4 bar
- Temperatura di esercizio 5-40°C
- Valvola a sei vie

TECHNICAL FEATURES

- Injection moulded
- Polished and glazed wedges finish
- Draining micro-hole pipe distribution
- 3/4" filter discharge
- Max. pressure 4 bar
- Operating temperature 5-40 °C
- Six-way valve
